

Sight threatening diseases such as glaucoma, macular degeneration, diabetic retinopathy and others often have no outward signs or symptoms, which is why eye exams, including a thorough retinal evaluation, are important to protect vision. In an effort to provide a more thorough eye exam, our practice has incorporated the iWellnessExam™ SD- OCT retinal scan and Digital retinal imaging as part of your eye exam today.

Our technician will perform these two tests before you go into the exam room and our Doctors will review these with you during your examination today. These two tests will become a part of your permanent patient record. The \$29 charge is typically not covered by your medical or vision insurance. This cost will be added into the price of your visit today. Any questions you have about these tests can be discussed during your examination with the Doctor.
